

internal melalui pelatihan para karyawannya dan juga secara eksternal memberikan pelayanan dengan kualitas terbaik kepada klien.

Terlepas dari profesionalisme profesi perawat, ilmu pengetahuan memerlukan pembaharuan secara kesinambungan termasuk pengetahuan resusitasi. Tantangan ke depan bagi peneliti adalah selalu mencari metode baru yang lebih akurat dan efektif dalam penanganan kasus gawat darurat. Hal ini tidak hanya bisa diterapkan di lingkungan dalam rumah sakit namun juga diterapkan di lingkungan luar rumah sakit seperti pre hospital care.
